Closing date: 29.10.2021

FRIEDRICH-SCHILLER-
UNIVERSITÄT
JENA

Friedrich Schiller University is a traditional university with a strong research profile rooted in the heart of Germany. As a university covering all disciplines, it offers a wide range of subjects. Its research is focused on the areas Light—Life—Liberty. It is closely networked with non-research institutions, research companies and renowned cultural institutions. With around 18,000 students and more than 8,600 employees, the university plays a major role in shaping Jena's character as a cosmopolitan and future-oriented city.

The *Department for the Psychology of Human Movement and Sport* within the Institute of Sport Sciences seeks to fill the position of a

Doctoral Researcher (m/f/d); 0.5 FTE, for initially 3 years

commencing on 1 January 2022.

Your responsibilities:

- Conduct interdisciplinary research within the fields of ***multisensory integration and anticipation in sport***
- Plan and conduct experiments and analyse resulting data
- Publication of research articles in quality international, peer-review journals
- Presentation of research outcomes at national and international conferences
- Teaching courses in the field sport & performance psychology and/ or motor learning (2h/ week)
- Supervision of Bachelor and Master theses
- Support in administrative tasks
- Work on a scientific qualification project, i.e. PhD degree

Your profile

- An excellent Master's degree (or equivalent) in human movement science/ sport science, psychology or in a related field
- Strong interest in conducting experimental research on the topics mentioned above
- Very good methodological, statistical and programming skills (e.g. Matlab, R or Python)
- Experience with different behavioral research methods (e.g. kinematic measurements, Virtual Reality, gaze tracking etc.)
- Excellent communication skills in English (oral and written)
- Scientific enthusiasm and motivation to work within an interdisciplinary research team

We offer:

- An exciting and varied scope of activities with creative freedom
- Excellent equipment and infrastructure
- Attractive fringe benefits, e.g. capital formation benefits (VL), Job Ticket (benefits for public transport), and an occupational pension (VBL)
- Remuneration based on the provisions of the Collective Agreement for the Public Sector of the Federal States (TV-L) up to salary scale 13 — depending on the candidate's personal qualifications—, including a special annual payment in accordance with the collective agreement.

The advertised position is (initially) limited to a maximum of 3 years with the possibility of extension. This is a part-time position with 50% of the working hours of a full-time employee (20h per week).

Candidates with severe disabilities will be given preference in the case of equal qualifications and suitability.

Are you eager to work for us? Then submit your detailed written application (including a cover letter describing your motivation for the position, research interests and relevant experience; a complete CV including contact details of at least two scientific references; and publication list), preferably by email (one PDF file), stating the vacancy **ID 318/2021** by **29.10.2021** to:

Prof. Dr. Rouwen Cañal-Bruland
Friedrich Schiller University Jena
Institute of Sport Science
Department for the Psychology of Human Movement and Sport
Seidelstraße 20
07749 Jena
Germany

or by email to:
